

WLSA Research Archive

Sample document for the archive reader.

This file demonstrates continuous PDF preview, zoom, page navigation, thumbnails, in-document search, fullscreen reading, and download.

Replace this PDF with your own review sheets, papers, or source documents.

Research workflow

1. Search across subjects, titles, authors, and descriptions.
2. Refine results by subject and content type.
3. Open an item page to inspect metadata and abstract.
4. Read the attached PDF online or download the original file.

The reader uses PDF.js and runs entirely in the browser.

Archive conventions

Keep documents inside the files/ directory.

Add metadata records in assets/data.js.

Use stable ids so links remain permanent.

Subject pages may coexist with the research archive interface.
